

German Ministry for Economic Affairs and Energy supports official pavilion of the Federal Republic of Germany.

As in previous years, German companies from the wire, cable and tube industries as well as from industrial technologies in the foundry and metalworking industries will have the support of the German Ministry for Economic Affairs and Energy as they participate in trade fairs in Russia (Moscow), China (Shanghai), India (Mumbai) and Indonesia (Jakarta).

Working together with the German Association of Wire and Cable Machine Manufacturers (VDKM), the Ministry supports exhibitors at wire China and wire India and – together with the International Tube Association (ITA) – at Tube India and Tube China.

Moreover, working with the German Engineering Federation (VDMA), the Ministry also provides support for exhibitors from the foundry and metalworking industries seeking to exhibit in Russia, India and Indonesia – at Litmash Russia, Metallurgy Russia, Metallurgy India and Indometal in Jarkarta.

Germany's international trade fair programme thus gives German companies attractive and inexpensive opportunities to exhibit at these trade fairs and to benefit in a variety of ways. Exhibitors from these metalworking industries are enabled to present themselves and their technologies at the German pavilion, under the German flag.

As before, Messe Düsseldorf GmbH has received the contract to create an official German pavilion at the trade fairs in question.

Exhibitors at the official German pavilion will pay a reduced participation fee for their system stands and space, while also receiving expert on-site support from Messe Düsseldorf as well as assistance in planning their trips, customs and other formalities and logistics. Free entrance tickets for customers and business partners and accompanying promotional and press material will ensure optimum public awareness of these trade fairs.

Registration documents and prices for participation in the official German pavilion at Metallurgy Russia and Litmash Russia are likely to become available at the end of 2017 and are expected to be released for wire China and Tube China, wire India and Tube India, Metallurgy India and Indometal in early 2018.

Would anyone interested in wire China 2018, Tube China 2018 or Metallurgy India 2018 please contact Katja Burbulla at Messe Düsseldorf directly by email at BurbullaK@messe-duesseldorf.de, by phone at +49 (0)211 4560 77 07 or by fax at +49 (0)211 4560 87 7707. Anyone interested in Metallurgy Russia, Litmash Russia or Indometal 2018 is requested to email Janike Rotthoff at RotthoffJ@messe-duesseldorf.de, ring +49 (0)211 4560 515 or fax +49 (0)211 4560 87 515.
